DESTRUCTIVE FIRE AT FOOCHOW

About 4 o'clock on the afternoon of the 17th

April an alarm of fire was given in the neigh-

bourhood of Messrs. Jardine, Matheson & Co.'s, Foothow. It appears the fire originated in a ing dried over a pile of blazing shavings; in few minutes the house was in flames, and fanned the houses on the other side of the wall were soon alight with the flames licking over the top; the heat was intense, and showers of burning extinguished before it had taken any great hold: if this had not been done the result would have been disastrous, as the stables, kitchens, and the hong must have fallen a proy to the devastator as they are all joined by ocvered ways. On the other side, Mess s. Tokmakoff,

Moletkoff & o.'s premises are protected by a fire wall which gaved them, slthough the shutters of the upper storey had to be taken off and aundry small coolies' houses pulled down-In the early part of the outbreak one of the Ewe fire engines was at this spot, and under the direction of Mr. Graham did good work in stopping the spread of the flames to foreign property, which, we believe, is insured in the Hongkong Fire Insurance Co. This gentleman narrowly escaped a serious accident from the falling wood work, a big stutter falling on him, but luckily only inflicting slight bruises. There is no doubt Pthat the system of fire walls is the only safeguard against fire in the crowded native town, where the streets are so marrow that it would be impossible for any organised Fire brigade to work with a powerful engine. In the centre of the ruius are now standing some high fire walls that partly surrounded a Cantonese colony of toa boys, weigh boys, &c, but unfortunately the end to the windward had no wall and consequently the property is destroyed, whereas it might have been saved. We are told thatnearly the whole loss falls on the natives, one compradore being a heavy loser; a London Company we believe is also interested to a small extent. The Customs boatmen under Papt. Walker were at Ewe with their ropes and hooks and their services were invaluable. Nearly promptly and kept order, also preventing a great deal of looting. Quite late in the day the official hook and ladder Company arrived from the city accompanied by their flag bearers, umbrella disappointed there was no work for them to do_ When we left the scene of the fire at about midnight the rains were burning fiercely, and

A serious loss occurred in May last during the great rain storm in that colony; the flooding of the godowns alone caused destruction of the contents to the extent of about \$6,000, and this amount was considerably increased by damage done to valuable goods in the store from roof leakage.

In December last your directors, finding that more capital was required to furnish stock sufficient for the steadily increasing business, took steps to form the branch into a separate company—Hongkong Trad-ing Company, Limited,—which was registered on December 7th, 1820. The board, however, on ascersingly the result of the year's trading, decided not to allot shares to the public until better figures could be shown. Meanwhile the general expenses are being kept as low as possible consistent with efficiency. The sales of this branch amounted to \$112,944.22 or the 10 months ended 31st December last, when the books were closed, ponsequently the sales effected during January and February do not appear in this
